Advertising Medium.

The advertising columns of the JOURNAL afford an excellent opportunity to our readers to study out where purchases of all kinds can be made on the most advantageous terms. All classes of goods can there be found advertised from a suit of clothes or nice silk dress to the daintiest ornament in the jewelry line. The JOURNAL reaches nearly every family as well as business house in the county, and, therefore, advertisers seek its columns that the public may know what they have for sale.

THE WEEKLY JOURNAL

The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at 2.50 per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the county. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

DR. SPINNEY

NO. 11 KEARNEY ST.,

Treats All Chronic and Special Diseases.

YOUNG MEN

WHO may be suffering from the effect of youthful follies or indiscretions, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Spinney will guarantee to restore \$500 for every case of Seminal Weakness or prostration, of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty, who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, the color will be a thin milky hue, gradually aging to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee perfect cure in all such cases, and a healthy restoration to the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sundays from 10 to 12 A. M. Consultation free. Thorough examination and advice, 50 cents.

THE PLACE OF MEETING.

The Carson Appeal of Thursday contains the following:

Taking into consideration the resolution passed at the last State Convention designating the Capital of the State as the place for holding the State Conventions of the future, it is a question whether the Central Committee at their meeting day before yesterday did not exceed their province in disregarding the same. There seems to have been a difference of opinion expressed in regard to the wording of the resolution, the opponents of Carson advocating that the resolution left it optional where the Convention should be held, while the members from Ormsby insisted that the question had been definitely settled. For the information of all concerned we give below an exact copy of the resolution, obtained from the minutes of the Secretary who officiated: By W. W. Bishop of Eureka:

Resolved, That hereafter, and until otherwise ordered by the Republican State Convention, the regular State Convention, shall be held at Carson City.

The portion of the Committee from Ormsby assure us that they were not anticipating any interference with the action of the last Convention in regard to this matter, feeling perfectly at ease that the above resolution would preclude any change of the kind made, more particularly as the Central Committee were chosen by the same Convention, and were supposed to respect its ruling. Otherwise, they might have been prepared with a copy of the resolution, believing that a correct knowledge of it would have changed the result. We believe it would, but since we have been tripped up by a little sharp practice, and our pitcher broken in two, there is no use crying over the waste, and letting on that we care a—shoestring, but prick up our ears for the next encounter on the 14th of September and thereafter. There is, however, one consolation after all, which should not be lost sight of, and that is that the delegates and attendants will have an opportunity of visiting and inspecting the new Insane Asylum building in their spare moments, the principal claim put forth for holding the Convention in Reno.

If it be true that the resolution reported above was adopted at the last State Convention then Reno relinquishes all right to the coming Convention, and will consent that Carson shall be the place of meeting.

Had the resolution referred to been produced at the meeting of the State Central Committee Reno would not have asked for the Convention, but inasmuch as all that was shown at the Committee meeting was that at a meeting of a former Central Committee there was a "tacit understanding" that thereafter the Conventions should be held at the Capital, and as that Committee had no right to bind a subsequent one, the fight was made and won for Reno as the place of meeting for the Convention of 1882.

The Convention of 1880 had the undoubted right to declare where the Convention of 1882 should be held, and if it adopted the resolution heretofore referred to, then and in that case the action of the State Central Committee in selecting Reno is without force or effect, and the Convention must be held in Carson.

Synopsis of the Army Appropriation Bill.

The Army appropriation bill, as ordered printed and recommitted by the House, provides for an aggregate appropriation of \$27,431,698, based upon estimates aggregating \$29,237,336, and an increase of \$743,898 over the appropriation of last year. The principal items of the bill are: For pay of the Army, on a basis not to exceed 25,000 enlisted men, and 500 enlisted men for the Signal Corps, \$12,247,198; \$1,164,000 for transportation; \$3,500,000 for supplies for Quartermaster's Department; \$2,300,000 for subsistence supplies, and \$1,400,000 for the purchase and manufacture of clothing and camp and garrison equipage. The bill contains a clause providing for the compulsory retirement of officers at 62 years of age, and a further provision referring to what are known as "Fourth of July Claims" to the Court of Claims.

Secretary Foster's speeches disclose the fact that the Land Act is but a poor success in Ireland. Of over seventy-two thousand acres entered in the Land Court, less than five thousand have been settled in any way and only about two thousand by the parties in action.

Mrs. Abraham Lincoln drew on Miss Sweet, the Chicago Pension Agent, Thursday, for \$15,000, the amount of pension recently granted by Congress.

It is stated that President Arthur will attend the Commencement exercises of Union College, his alma mater, in June next, if his public duties permit.

A good many men are still leaving Sutro. They are striking out for all manner of places, mining and otherwise, in search of work.

STATE NEWS.

Sheriff Baum of White Pine is reported ill with pleurisy.

Nearly all the Eureka scarlet fever cases are in a fair way of recovery.

A grand Fourth of July excursion to San Francisco under the auspices of P. H. Mulcahy, is on the tapis.

It is now positively asserted that the Eureka Con. mine has larger and richer bodies of ore than at any time previous for two years.

The Carson Appeal says immense flocks of wild ducks of every description can now be found in the vicinity of Valley's Springs, but it requires a good deal of walking to stir them up. Hunters who are not willing to travel through slippery and slushy places for several miles cannot accomplish much up there.

The Carson Index says the condition of Judge Hillyer remains equivocal, if not really mysterious. He is said to be at times much improved, and again he reverts into a state of depression in which both mind and body seem more or less to participate. The most positive and reliable assertions which have recently come under our hearing are to the effect that on the whole the Judge is improving.

The Eureka Sentinel says J. P. Edoff, Esq., has shipped from Elko within the last month 96 car loads of barley to California. As each car load is 8 tons it will be seen that the total shipment is 768 tons. This is a rather singular course of trade, but it is accounted for by the fact that Elko county has found but a poor market for the sale of grain this season in Eureka. The profit of the barley shipped to California is very small, but it is better to sell at any price than not to sell at all.

Black foxes are very rare animals, but the Eureka Sentinel says that Superintendent Robinson of the Bay State mine, Newark, took a shot at one last Saturday which was cavorting around the road to Eureka. The leaden messenger made old Reynard bound six feet in the air, but when he regained his feet he darted off like greased lightning, and was soon lost to view in the sage-brush. Mr. Robinson describes the animal as an exceedingly pretty one, and the first of the kind he has seen in this region.

The Winnemucca Silver State says the weather is usually stormy for this or any other season of the year in this portion of Nevada. Scarcely a day passes without more or less snow falling.

The greater portion of this snow melts shortly after it falls, and the result is, very bad roads, slushy streets, and pools of water wherever there is a depression in the ground. The oldest inhabitants, including Dave Melarkey and Jerry Gramme, agree in saying that it is the worst March weather they ever saw on the Humboldt. There is, according to all reports, more snow in the mountains than there has been before for years, and the only consolation people get is from the belief that water will be plentiful next Summer, and that grass and other crops will be abundant.

Secretary Sherman Vindicated.

The report of the Committee investigating the Treasury expenses is very voluminous and completely vindicates Secretary Sherman. The Committee recommend certain safeguards against the illegal use of the Treasury Contingent Funds in the future.

Congressman Cassidy, in the debate on the Chinese bill, remarked that unless political pledges go for nothing the bill should pass unanimously, as all the political parties of this country had declared Chinese immigration ought to be restricted. Cassidy must have been thinking of his remarks in our State Senate when the Bullion Tax bill was under discussion.

The California Democratic State Central Committee met Thursday afternoon in San Francisco and fixed upon San Jose as the place and the 20th of June as the date of the next State Convention. Each county gets one delegate and one additional for each 200 votes cast for Hancock.

Senator Fair's New Stores.

This building, which takes rank among the first-class architectural structures of San Francisco, and which covers a fifty-acre lot, on the corner of Pine and Sansome, will be fit for occupancy next month, just eight months from the time of laying the foundation stone. The cost, when all is complete, will be \$180,000. It is divided into four large stores, and is five stories high, with a basement. The buildings will be supplied with rain elevators, the shaft for which, seventy-five feet deep, is now being sunk. The cost of elevators alone will be \$30,000. Since the building was started, an artesian well 180 feet deep has been sunk. In sinking the well, the first stratum of water was struck at fifty-four feet from the surface, and was twenty feet in thickness. The next stratum of water was eighteen feet in thickness, and struck at a depth of one hundred and ten feet; and at seventy feet further down the bedrock was reached.—S. F. Call.

Hon. W. E. F. Deal, of Virginia City, is a candidate for Governor of Nevada on the Democratic ticket.—[S. F. Call.]

Cassidy's Speech on the Chinese Bill.

In the House yesterday, the Chinese bill being under discussion, Congressman Cassidy admitted the gravity of the question with which Congress was now confronted, and also admitted that it was a departure in legislation from the history and policy of the government, but if political pledges and the platforms of political conventions did not go for nothing the bill should pass unanimously, for the conventions of three parties, Democratic, Republican and Greenback, had declared that there should be no more Chinese immigration. The people of the Pacific Coast did not come to Congress pressing for relief because their section was overrun by Chinese, but because as American citizens carrying the alarm and sending it along the line to their brethren of the East that there was an evil in the country, an invasion upon it, that was threatening to our civilization and free institutions as an army with ironclad ships and fixed bayonets. They foresaw that if the immigration of Chinese should continue unrestricted the scenes that had been enacted in California and Oregon and Nevada, and which existed there to-day, would in a later time be witnessed in other sections of the country. He argued that the bill was right under the Constitution, the law and the treaty. In reply to the objection that twenty years suspension was too long, he contended that the suspension contemplated with the dignity of the two nations. A less time could not be fixed and be within the limit of the "reasonable time" contemplated by the treaty. The laborers whose immigration this bill is sought to prevent were all coolies, for in his experience he had never known of skilled Chinese labor coming to this country. Coolies come under contract as slaves, and upon their landing their servile contracts are enforced by the district tribunals of the Six Companies. They do not come here because they love liberty and hate oppression. They come for sordid purposes and to better themselves pecuniarily. In conclusion he dwelt upon the vice of the Chinese and contended that their immigration would breed disease and disorder, and would tend to destroy the civilization of the country.

The Genoa Accident.

The Carson Tribune of Thursday evening has the following particulars of the snow slide at Genoa:

At 5:30 o'clock this morning the people of Genoa were aroused from their slumbers by a thundering, rumbling sound that made them imagine the mountains west of town had slid from their foundations. All rushed to the street and found that an immense body of snow had slid down Genoa Canyon, completely covering all the small houses at the foot of the canyon, and extending to the banks near the river. M. Bowen's house was covered up, and after much hard labor the occupants, Mr. B. and wife and Pauline Borten were taken out dead. Several others are reported missing. Seven Indians were covered up at their campgrounds on the hill side, and how many more have suffered has not yet been ascertained. The house of Tom Audrain, our old Empire City friend, had a very narrow escape. It was reported that Tom had been seriously injured, but such is happily not the case. At last accounts the people of Genoa were becoming seriously alarmed, and were leaving their homes in anticipation of more heavy snow slides.

Floods in the Mississippi.

[Eureka Leader.]

Forty years have elapsed since a great flood occurred in the Mississippi and its tributaries. A very destructive flood occurred in the Ohio in 1847, when the water in the river at Cincinnati rose 60 feet. The recent rise was reported at 57 feet. But on the Lower Mississippi whole countries are submerged, and the privations and distress of the people are unparalleled. The loss of life and property will be very great, but the Government is affording all the relief possible.

A Possible Presidential Ticket.

[From the Quincy (Ill.) Herald (Dem.)]

The Kelly-Cornell bargain is intended to operate at the next State election in favor of the Republicans. The administration expects to carry New York and Virginia through the exertions of Kelly and Mahone. By the way, how would this do for a Presidential ticket for 1891: For President, William Mahone, of Virginia; for Vice President, John Kelly, of New York?

The Latest Mormon Question.

[From a New York Dispatch.]

"Is there any truth in the rumor lately telegraphed from the West that Brigham Young, late head of the Mormon Church, is still alive?" was asked John Sharp, the Mormon Bishop, who is at the St. Nicholas Hotel. "I positively decline to answer that question, or to make any statement whatever on the subject," said Bishop Sharp.

Jacobs the Tailor.

The apparel does not always proclaim the man, but it unquestionably proclaims the tailor. A man in badly fitting clothes may be a great man, but he is a short sighted man else he would have gone to Jacobs and made himself solid with the public by getting some well cut clothes.

Why Men Smoke.

I was a smoker for more than ten years without discovering why I liked to smoke. Dropping into the Chevalier's lodging the other night, I lighted his best meerschaum and puffed away ten minutes, killing time with discussing whether boxing and the manly art of self-defense were preferable to Indian clubs as an exercise. "I suppose you will be surprised," said the Chevalier, "when I tell you that the principal enjoyment you have in that pipe is seeing the smoke." I laughed at the suggestion. "Shut your eyes, keep them shut, and hand me your pipe," said the Chevalier. I obeyed. He returned it in a minute, and with my eyes closed I began to puff, but could not for my life tell whether I was drawing smoke or not. To my disgust, I found that he had extinguished the fire. He then handed me a cigar from a box of fresh Garcias. After one-third of the weed had been consumed, he asked me to repeat the experiment. When I opened my eyes I saw the cigar was still burning, but it required ocular proof to convince me. My lips, tongue, gums and palate were so thoroughly nicotineized by fifteen minutes' smoking that later fumes had no perceptible effect. Let any old smoker try this experiment and he will find that the last half of a pipe or cigar, except that it pleases to see the smoke, is absolutely worthless.

A Cable Car Line to be Introduced in Philadelphia.

The system of moving street railway cars by means of an endless cable is to be experimented with by the Union line of this city. W. B. Reaney, an engineer, has been sent to Chicago, where a line of cars is run by this plan, to study the system and prepare plans for its application here. The experiment will be made on that section of the road lying between Twenty-third street and the East park. When the company has arrived at a point which they deem perfection, the wires will be extended down Columbia avenue to Seventh and to Franklin streets and eventually all the tracks will be displaced entirely. It is thought that the experimental line will be finished by July next.—Philadelphia Times.

A REUNION OF GIANTS.—Seventy-three men, not one of whom was less than six feet two inches in height, lately sat down to dinner in Delmonico's New York. The 450 feet of humanity represented the entire membership of the Titans, a social organization composed of many prominent New Yorkers.

The Eureka Leader has this: It is stated that D. E. McCarthy, publisher of the Virginia Chronicle, is about to start an evening paper in Salt Lake, and that he is now in San Francisco purchasing the required outfit.

Eight patients in the hospital.

It was very pleasant overhead yesterday.

Dr. Hutchins lectured in Carson last night.

Capt. A. D. Griffin has returned from Eureka.

Gen. R. M. Clarke was in town last evening.

No performance at Reform Club Hall to-night.

Dawson & Caughlin keep first-class bit cigars, as well as wines and drinks of all kinds.

It is thought that the J. & K. delinquent sale will be postponed for another month.

The snowfall in the mountains near Lakes Bigler and Mariette has been the greatest known for years.

Attention is called to the delinquent sale notice of the N. & O. R. R., signed by T. Coffin, Secretary.

St. Patrick's Day was observed quietly, but Pat Keating, Mr. Murphy and Henry Johnson proudly exhibited the shamrock.

Owing to a change in his business affairs Dr. Dawson desires those indebted to him to make immediate payment. Note W. Roff is his authorized collector. See 50-cent column.

Governor Kinkaid has issued a commission appointing Charles H. Sproule, of the Lander Free Press, a regent of the State University at Elko, vice ex-Senator T. N. Stone, resigned.

Married, in San Francisco, on March 13th, 1881, H. H. Welsh to Miss Mollie Hortense Kuttel, daughter of Gen. John R. Kittell. For reasons best known to themselves, and which the general public is not interested in, these young people now make known their marriage.

Thursday night an engine with a snow-plow attached was kept running up and down the V. & T. railroad between Virginia City and the Mound House in order to keep the track clear. A snow-plow was also kept going through Washoe valley, a section of the road where bad drifts are liable to form. By this means the V. & T. road has been kept free from snow.

The Supreme Court has rendered a decision in the case of the Albion Mining Company against the Richmond Mining Company. The full particulars of the decision have not been received, but it is understood that the Victoria patent, on which the Richmond rested their claim to the ground held by Albion, is overthrown, and that in all essential points the decision is in favor of Albion, which gets all the ground claimed by it.

State Money.
The Board of Examiners report that on the 15th of March the sum of \$238,364 75 was in the Treasury.

C. P. Trains.
The snow blockade still continues on the Summit, but the prospects are considered favorable for the road to be opened to-day. All West-bound trains have been ordered to Truckee. The train arriving here last night was an hour late. No. 6 and No. 7 were abandoned on the Truckee Division yesterday.

Knights of Pythias.
On the 6th proximo Grand Chancellor George H. Morrison, accompanied by all the Grand officers of this jurisdiction and a large number of Knights, will charter a special train at Virginia and visit Carson Lodge, No. 4, of Carson City. Several speeches, toasts, and a banquet will be the order of the evening. The banquet will be spread in the hall of Carson Lodge. Members of the Order in Reno will also be present upon the occasion.

The Eagle Lake Tunnel.
The Enterprise says the tunnel to tap Eagle Lake is being advanced at the rate of thirty-five feet per week. It will be about a mile and a half long, and it is expected that it will be completed next Fall. It will furnish water power for running several saw mills, and finally will irrigate a great area of now barren sagebrush land in Honey Lake Valley. The tapping of this lake is an experiment that is being watched with great interest everywhere on the coast. Should it prove as successful as is anticipated, it will be followed by a similar tapping of many other lakes on both sides of the Sierras for mining, timbering and other purposes.

Nevada Theater.

To-night we are to have the jolly comedy entitled "The Strategists," a piece which has strewn vest-buttons from end to end of the Union. Of "The Strategists" the Toledo Blade says: "The play is a rollicking aggregation of ridiculous situations, in the presentation of which there is fun enough for a million. Joe Polk, in the character of Jack Ruttledge, is a host in himself. In his endeavors to win a wife he resorts to strategy, and personates his sweetheart's father, also his own father. Of course he gains his ends, but in doing so places everybody in the cast, himself included, in the most absurd situation, in the working out of which the audience is kept in one continuous roar of laughter. There is nothing so broad in the dialogue as to appear unseemly, and as a whole it is difficult to see how the play can be improved upon. The company is a rarely good one. There is not a weak point in it." Seats have been going off like hot cakes, and the house is sure to be crowded to-night. Reserved seats but \$1.

Miscellaneous Mail Lettings.

Proposals will be received at the Contract office of the Postoffice Department until 3 p. m., April 29, 1882, for carrying the mails of the United States upon the routes, and according to the schedules of arrival and departure specified by the Department, in the State of Nevada, from July 1, 1882, to June 30, 1883. Lists of routes, with schedules of arrivals and departures, instructions to bidders, with forms for contracts and bonds and all other necessary information, will be furnished upon application to the Second Assistant Postmaster General.

Rev. T. H. McGrath Shoots Himself.

Thursday morning between 2 and 3 o'clock, Rev. T. H. McGrath, generally known as "Father" McGrath, accidentally shot himself, at his residence on South D street, Virginia City, while handling a self-cocking revolver. The ball entered his breast about 2 1/2 inches below and about 1 1/2 inches to the right of the left nipple, producing a wound from the effect of which it is now confidently expected that he will recover. The bullet was removed from his body yesterday morning. It was taken out from his back. The ball is a very small one, being about the size of a pen.

Spring and Summer Suits.

S. Jacobs, merchant tailor, has just received a beautiful assortment of English, French and American cloths, suitable for the Spring and Summer. Those contemplating getting suits to order should call on Mr. Jacobs and examine his assortment and get his prices, and should they decide to give him an order they can feel assured of a first-class fit.

MR. FRANK AIKEN!

Conceded by the Press of the entire country, the most successful Comedy ever Produced. ONE CONTINUOUS FUSILLADE OF FUN FROM BEGINNING TO END. Mr. J. H. Haverly, always alive to the wants of the public, discovered this piece (like a rough diamond) in the hands of a Company struggling for recognition, under the most unfavorable surroundings, and decided to make it "The Comedy of the Times." He purchased it from its author, and placed it upon the road, with a strong cast of recognized artists, headed by the favorite comedian, Mr. J. B. Polk. The Company was sent to San Francisco for the production. It was an instantaneous success, and ran four weeks (the last of the Lenten season) to "STANDING ROOM ONLY," at the Bush Street Theater. EVEN THE CHINESE "MUST GO."
